

THE ART OF  
BRASS

Salone  
del Mobile  
Milano

  
CASTRO

SALONE DEL MOBILE 2026

FIERA MILANO, RHO

# SALONE DEL MOBILE

APRIL 21-26, 2026

From April 21 to 26, 2026, **Fiera Milano**, in Rho, once again hosts **Salone del Mobile. Milano**, one of the world's leading stages for design, creativity, and innovation. Reserved for industry professionals throughout the fair, with public opening on **April 25 and 26**, the event brings together brands, designers, and key voices in the industry in a setting where vision, material, and contemporary culture meet.

Under the theme **A Matter of Salone**, the 2026 edition reflects on design through its most essential origin: matter. Following Thought for Humans in 2025, this year's concept proposes a deeper perspective on what comes before form and function, exploring matter not only as a physical substance, but as memory, potential, and possibility.

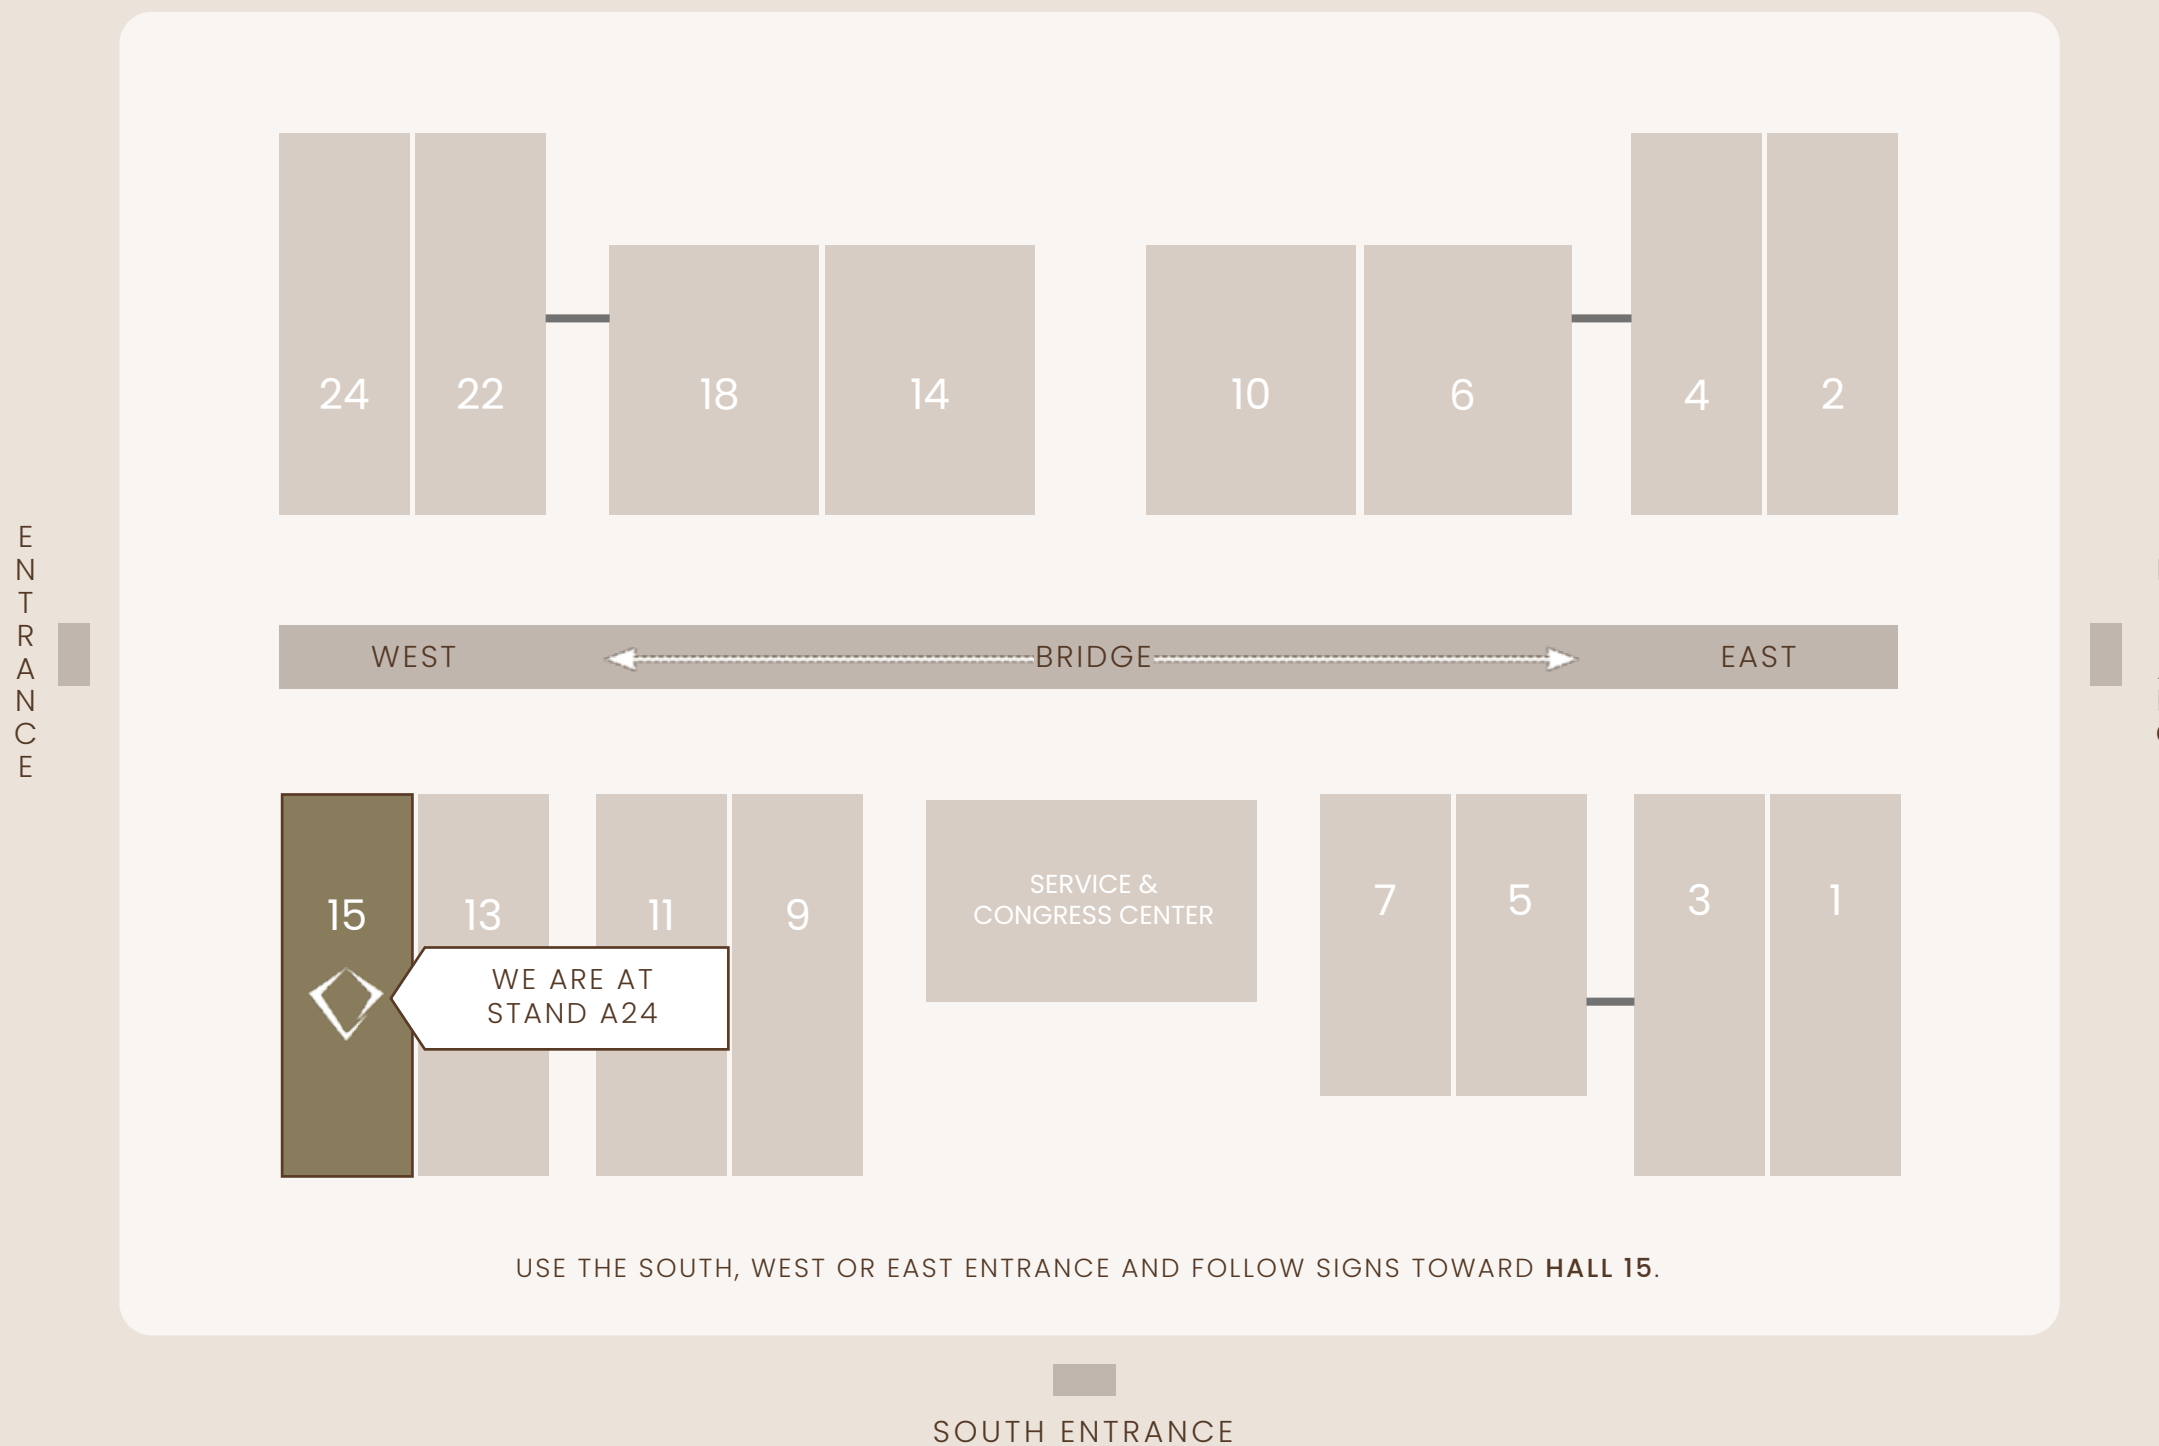

IT IS AN EDITION THAT INVITES A MORE THOUGHTFUL READING OF DESIGN,  
HIGHLIGHTING PROCESS, AUTHENTICITY, AND THE TRANSFORMATIVE POWER  
OF MATERIAL.

# THE ART OF BRASS

HALL 15 STAND A24

At Salone del Mobile 2026, Castro Lighting's presence becomes part of a wider dialogue on design excellence, where quality, creativity, and craftsmanship remain at the forefront. Within this context, Castro affirms its place as a brand with a clear identity, continuing to translate artistry into lighting of enduring impact and timeless appeal. Presented through a curated selection, its presence in Milan offers a glimpse into a world of elevated design, where every piece is conceived to enrich spaces with distinction, beauty, and character. Under the theme **Art of Brass**, Castro Lighting presents the material expression of its presence at the fair.

In dialogue with **A Matter of Salone**, the concept highlights brass as a source of richness, light, and decorative depth, a material long associated with permanence, beauty, and character. More than a medium, brass becomes the central element through which the brand communicates its vision of refined and expressive design. Brass is felt in the atmosphere of each piece, in the balance between sculptural presence and refined detail, and in the way light interacts with surface, tone, and form. Its warmth and distinction shape a language that is both timeless and evocative.

Through **Art of Brass**, Castro Lighting brings to Salone a vision where material takes precedence, revealing brass's enduring power to define space with elegance and identity.
